

Customer Information

November 14, 2014

Dear Valued **Halyard Health** Customer,

We would like to inform you of changes made to the Instructions for Use (IFU) for the Homepump C-Series* Elastomeric Infusion Pump. The *Delivery Time Information (Table 1)* provided in the IFU, for pump model C270050 (270 ml x 5 ml/hr) has been updated. The design, function and operation of the pump remain the same. Updates to the table in the IFU for this model are summarized below:

Homepump C-Series* IFU: 14-60-591-0-03 (Version 2013) to 14-60-591-0-04 (Version 2014)

- Based on customer feedback, partial fill volumes for 44 hour and 46 hour delivery times for pump model C270050 were added
- Adjustments to the existing 48 hour, 60 hour and 72 hour partial fill volumes for pump model C270050

The changes described above will improve the accuracy of information associated with the elastomeric pump operation, and provide additional fill volumes for delivery times requested by our customers. There is negligible patient risk as a result of changes to the Delivery Times Table in the IFU relevant to this Change Control.

Please visit www.halyardhealth.com for the updated version of the IFU referenced in this letter. The updated IFU will be shipped with product in the coming months.

If you have any questions regarding this Customer Information, please call: Halyard Health, Irvine Customer Service (8:00 am – 5:00 pm U.S., Pacific Standard Time): 800-448-3569/949-923-2400 or the 24-hour Product Support Hotline, 1-800-444-2728.

Sincerely,

Shelly Harris
